Mandatory Stage I Water Conservation

July 20, 2018

Re: Mandatory Stage I Rationing with Restrictions to ONCE a Week Outside Watering

Effective Immediately:

Parker County Special Utility District is implementing Stage I of the District’s Drought Contingency Plan due to the ongoing drought and the District’s water consumption has exceeded 80% of the daily maximum supply. The District’s goal is to reach a 20% reduction in total use.

The water conservation measures to be implemented are as follows:

- Initiate mandatory conservation measures, where possible.
- All “non-essential water use” shall be PROHIBITED between the hours of 10 a.m. and 6 p.m.

“Non-essential water use” is defined as washing windows, siding, eaves and roofs of buildings; washing driveways, streets, curbs and gutters; vehicle washing; unattended irrigation or sprinkler lawn watering of landscaping, shrubs and grass; draining and filling swimming pools; and flushing water systems.

Handheld hose watering of landscaping, shrubs and grass is permissible subject to the “time-of-day” restrictions established herein.

- Unattended irrigation or sprinkler lawn watering is permitted only ONCE a week on your designated day and is NOT allowed between the hours of 10 a.m. and 6 p.m. according to the last digit of your street address.

0 and 1: Monday 
2 and 3: Tuesday 
4 and 5: Wednesday
6 and 7: Thursday 
8 and 9: Friday

No outside watering on Saturday or Sunday OR between the hours of 10 a.m. and 6 p.m.

Stage I Outside Residential Water Use Enforcement Policy:

1st Violation - The member will be notified by a written notice of their specific violation. Excessive water users could face a rate increase.

2nd Violation - Installation of a flow restricting device in the customer’s service line to limit the amount of water through the meter in a 24-hour period.

Subsequent Violations - The District may terminate service for up to 7 days and charge for the service call to restore service.
